

Upgrading to ADS-B for Older Experimental(s) - - Considerations and Cost

Our November EAA Chapter 92 program will provide a practical review of ADS-B OUT equipment required for the FAA's Next Generation (NexGen) ATC System deadline of January 1st 2020. ADS-B equipment offered in the current avionics market, including a review of options of importance to your experimental aircraft. Display applications, such as EFB's and panel mount for ADS-B IN, are included and discussed in the presentation.

Directions: South on the 55 Freeway to the end in Costa Mesa; right at the light on 19th Avenue, left on Park Avenue. Community Center building is on the right, just beyond the Costa Mesa / Orange County Library.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.
